This week’s Did You Know:

**COURSEWEB COURSES TO BE ARCHIVED MAY 7th**

Pitt’s LMS Support and Consulting group will relocate CourseWeb courses from Fall 2013 through Summer 2016 to a backup server through a process called archiving. This allows the University of Pittsburgh to free up space in our learning management system, which improves overall system performance.

- Only courses dating between Fall 2013 through Summer 2016 will be archived.
- You may request that your course be exempted from this process by completing the [Archive Exception Request form](#).
- Courses taught after the Summer 2016 term will remain available.
- Archived courses are retrievable by email request to [lms@teaching.pitt.edu](mailto:lms@teaching.pitt.edu).

**COURSEWEB MAINTENANCE MAY 2–3**

CourseWeb will be unavailable during an extended maintenance period beginning at midnight on Wednesday, May 2nd until 11:59 p.m. on Thursday, May 3rd. If work is completed ahead of schedule, the system will be returned to service earlier and an announcement will be posted to technology.pitt.edu. This maintenance is necessary to maintain the stability and reliability of CourseWeb.

If you have any questions, please contact Katz IT at [it@katz.pitt.edu](mailto:it@katz.pitt.edu) or at 412-648-1601.

**NO KITS EVENING HOURS APRIL 30 TO MAY 4**

Katz IT Services will be closing at 5:00 p.m. the week of 4/30-5/4. Please contact CSSD after-hours at 412-624-HELP if you need assistance with Pitt-run technologies. These do not include JOE, BizNet, StudentNet, or network drives – if you have trouble with any of these things, please email [it@katz.pitt.edu](mailto:it@katz.pitt.edu) for assistance.

**And don't forget:**

Want to learn about new technologies over the summer? [Lynda.com](http://lynda.com) is a free educational service available through Pitt which focuses on technology education, including applications of technology in business. You can find a link to it through [my.pitt.edu](http://my.pitt.edu), or check out [http://technology.pitt.edu/service/online-technology-training-lyndapittedu](http://technology.pitt.edu/service/online-technology-training-lyndapittedu) for more information.
