Logging in to SDC Platinum 3.0

Before you can log in to SDC for the first time on any computer, you will need to create a user account. This user account does not transfer from computer to computer.

1. Open the program SDC Tools from the icon on the desktop
2. Click on the Account button in the upper left. Enter the following information:
   - Login ID: upitmapc
   - Password: deals
   - Host: SDC 7
3. Click on the Administrator Info tab, and enter your name and telephone number
4. Click OK
5. Next, click on the Users button, then click Add
6. Enter the information
   - Note that the initials you enter on this step will be your SCD login
7. Click Close
8. Click the Options button
9. In the **IP Address** field, enter: 
   *platinum.thomsonib.com*

10. Click **OK**

11. Close SDC Tools

12. Open SDC Platinum 3.0

13. Click **Login**

14. Enter the initials you created in step 6

15. Start using SDC
