Mervis IP Printing for Mac Users

The following instructions are for Mac OS 10.5 “Leopard.”

1.) Go to “System Preferences.”

2.) Click on “Print & Fax.”

3.) Click on the “+” sign under the Printers list.
4.) Select the “IP” tab at the top of the screen. Under the “Protocol” drop-down, choose “HP Jetdirect - Socket”

5.) Enter the IP address for the printer

- 136.142.214.60
- 136.142.214.61
- 136.142.214.62

Then, click the drop-down next to “Print Using” and click “Select a driver to use…”

Type “9040” into the Search Field and choose the driver for the HP LaserJet 9040.
