**SDC Platinum Installation**

If the installation does not begin automatically, find your CD/DVD drive under My Computer, and double-click on `SDCPlatinum30.exe`.

Follow the prompts during installation. You will not need to make any changes to the settings. Once the installation is done, click **Finish**, and wait for the program to start.

SDC Tools will launch. Click on the **Account** button in the upper left. Enter the following information:

- **Login ID:** upitmapc
- **Password:** deals
- **Host:** SDC 7

Click on the **Administrator Info** tab, and enter your name and telephone number.

Click **OK**.

Click on the **Options** button. In the IP address field, type in `platinum.thomsonib.com`.

Click **OK**.

Next, click on the **Users** button, and then click on **Add**.

Fill out the information. *The initials you enter here will be used as a login every time you open up SDC Platinum.*

Click on the **Close** button, and then exit the SDC Tools application.

Open up SDC Platinum V3.0 from your Start menu, under All Programs.
Click on the **Options** button. In the IP address field, type in `platinum.thomsonib.com`.

Click **OK**.

You may now log in to SDC Platinum.

If you need assistance, the SDC support group is available 24/7 at 888-989-8373. Choose option #2 - SDC Technical support.
